# Application Library

Make it easier to navigate  
with customizable  
one-touch buttons

\*Only on models with 5" Color Touch Screen

# Remote User Interface (RUI)

Using a Web browser to operate the machine remotely, you can check the documents waiting to be printed or the status of the machine. You can also make various settings. You can do this without leaving your desk, making system management easier.

The screenshot displays the ImageRUNNER ADVANCE Remote UI Portal. The interface includes a header with the logo, device name, product name, location, and user information. The main content area is divided into several sections, each with a numbered callout:

- 1: Language dropdown menu (English)
- 2: States Monitor/Cancel button
- 3: Settings/Registration button
- 4: Basic Tools section header
- 5: Fax/Fax Inbox button
- 6: Direct Print button
- 7: Address Book button
- 8: Management Tools section header
- 9: Portal Display Settings button
- 10: Message Board section
- 11: Consumables Information section
- 12: Device Basic Information section

The Message Board section contains a message from the System Manager. The Consumables Information section includes a table for Paper Information:

Paper Source	Remaining Paper	Paper Size	Paper Type
Multi-Purpose Tray	None	Unknown	Undefined
Drawer 1	<input type="text"/> OK	LTR	Plain 2 (81-90 g/m2)
Drawer 2	<input type="text"/> OK	LTR	Plain 2 (81-90 g/m2)
Drawer 3	<input type="text"/> OK	LTR	Plain 2 (81-90 g/m2)
Drawer 4	<input type="text"/> OK	LTR	Plain 2 (81-90 g/m2)

The Remaining Toner section includes a table:

Item Name	Remaining Toner
Remaining Black Toner	<input type="text"/> OK

The Management Tools section includes links for Shared Credential Management Service, Service Management Service, and User Setting Information Management Service.

Life is unpredictable.  
**FireKing® specializes in “unpredictable.”**

For over 65 years, FireKing® has been providing high-quality products designed to protect your company's vital business records. FireKing® offers a broad array of products that are manufactured or created using the most innovative, advanced product development technology available.

## File Features

### **FIRE RESISTANT INSULATION**

Gypsum insulation that is reinforced by heavy gauge lattice providing peace of mind from fire and impact.

### **WATER RESISTANT**

All FireKing® files are designed to prevent water damage resulting from sprinklers and fire hoses. Vertical Classic files are ETL verified and have a fire-retardant silicone gasket around drawer for added protection.

### **STEEL PANELS**

In the event that a panel is damaged, it can be easily replaced.

### **FINISH**

Environmentally friendly electrostatic powder coating applied to all sides, including bottom.

### **DRAWER BODIES**

High drawer sides accommodate hanging folders.

### **DRAWER SUSPENSIONS**

Maintenance free, lifetime guarantee.

### **DRAWER LOCKS**

All the files provide general locking through either a standard key lock or UL® listed, high security locks.

### **DRAWER PULLS**

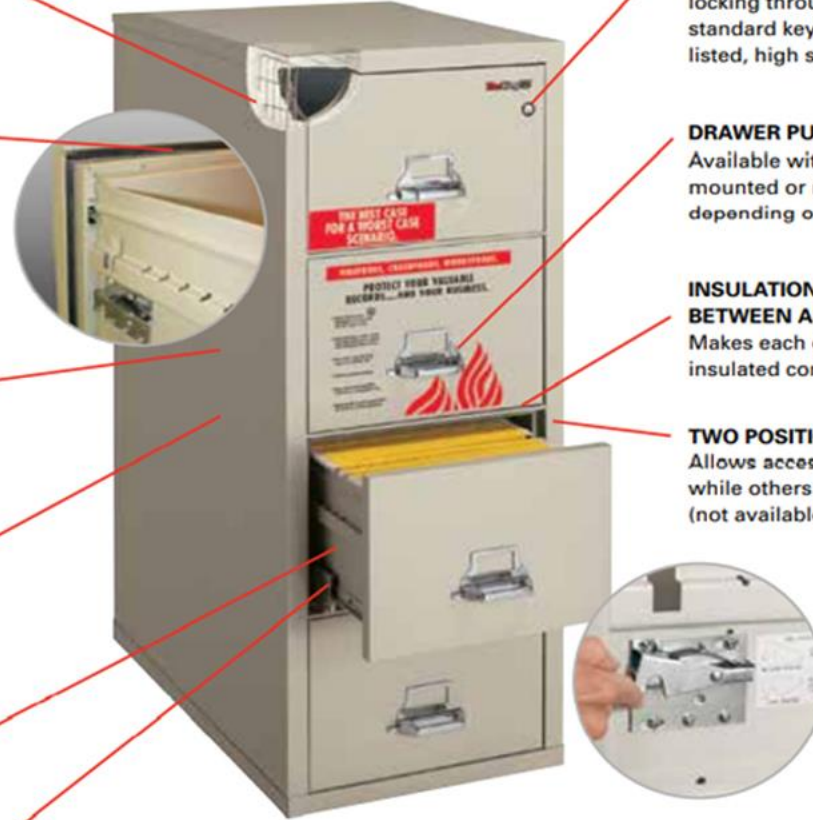

Available with surface mounted or recessed handles depending on model.

### **INSULATION**

Makes each drawer a separate insulated container.

### **TWO POSITION DRAWER CATCH**

Allows access to certain drawers while others remain locked. (not available on the Patriot files)
